# Fine Finishing Spray Packs

## Icebreaker Spray Packs

# Spring Air Assisted Specials

## IceBreaker

The high pressure piston pumps from Wagner are designed for airless and aircoat applications. The unique internal design of the motor and its special discharge valves drastically reduce ice formation and prevent accumulation to ensure superior performance and exceptional reliability. Self-adjusting packings and a thick hard chrome plated stainless steel fluid section ensures durability regardless of the material used. The packing-free, anti-stalling pilot valve is always fed by full air pressure, regardless of the adjusted working pressure, to guarantee high speed inversions and optimal performance.

### High Pressure Filter Version

- Made from stainless steel
- Mounts directly to the fluid outlet
- Designed for high flow rates

### Release Combo Version

- Made from stainless steel
- Mounts directly to the fluid outlet
- Valve designed to relieve pressure and to fill / flush the pump

## Complete Spray Packs

### Wildcat 18-40 Cart Mount Spray Packs

- Wildcat 18-40 PE/TG (#2329456)
- Trolley 4" Assembly (#2325901)
- AirCoat Regulator Ice Breaker (#2328611)
- Suction Hose Assembly (#2324110)
- Release Combo or HP Fluid Filter (2329023 or 2329024)
- GM 4700 AC With Air Cap and Tip (GM4700-BL413)
- Twin Hose Set - 25 ft (#2309706)
- Throat Seal Lubricant - 250 mL

High Pressure Filter Version: 2393649

Release Combo Version: 2393650

### Wildcat 18-40 Wall Mount Spray Packs

- Wildcat 18-40 PE/TG (#2329456)
- Wall Holder 4" Assembly (#2332143)
- AirCoat Regulator Ice Breaker (#2328611)
- Suction Hose Assembly (#2324110)
- Release Combo or HP Fluid Filter (2329023 or 2329024)
- GM 4700 AC With Air Cap and Tip (GM4700-BL413)
- Twin Hose Set - 25 ft (#2309706)
- Throat Seal Lubricant - 250 mL

High Pressure Filter Version: 2393651

Release Combo Version: 2393652
